PROFESSIONAL SUMMARY

Graphic Designer and Software Engineer with experience creating intuitive UX/UI solutions and full-cycle software products. Skilled in frontend and backend development, I specialize in merging creativity with technology to build scalable, user-centered digital experiences. I'm eager to continue contributing to the software industry through visually engaging and technically robust solutions.

WORK EXPERIENCE

Full Stack Developer
Dec. 2024 – July 2025

ICMS | Burlington, Canada

- Built the ICMS Portal with key functionalities for asset management and report generation, integrating data queries from the Limble API.
- Developed an efficient flow for creating and editing information using Laravel, Blade, and Jetstream, and integrated external services to automate reporting. I ensured full technical compatibility with PHP 8.1, optimizing performance both locally and on the server.
- Designed the Timesheet module for both mobile and desktop use, along with additional administrative utilities that improved the portal's internal operations. Additionally, I led the visual redesign and full implementation of the website in WordPress, strengthening the user experience and overall brand consistency.

Visual & Web Designer
Apr. 2024 – Present

Freelance | Hamilton, Canada

- Designed and developed responsive websites ensuring engaging UX and brand consistency. (WordPress, Elementor, WooCommerce, Laravel, Figma)
- Created logos, corporate identities, and promotional materials aligned with brand values.
- Managed social media content creation to enhance brand visibility.
- Produced high-quality visual content using Adobe Creative Suite (Photoshop, Illustrator, InDesign).

Peer Helper – Tutoring Lab
Sept. 2023 – Apr. 2024

Mohawk College | Hamilton, Canada

- Provided design support creating posters and guides using InDesign, Photoshop and Illustrator.
- Led workshops on digital tools such as Canva, Adobe Express, and Microsoft 365.

Full Stack Developer
Mar. 2022 – Mar. 2023

Creative Guild | Hamilton, Canada

- Translated visual designs into interactive web elements. (Figma, Bootstrap, Vue.js)
- Maintained WordPress plugins and ensured site stability.

Project Manager
Apr. 2012 – Sept. 2021

SysCafé | Ibagué, Colombia

- Led design strategies to improve UI/UX in mobile and web projects.
- Supported ISO 27001 certification process by implementing secure design practices.
